CM9.2. Development of Nexus

Cr Stuchbery moved,

That Council abandon any further plans to develop Nexus, and place the development “as is” on the open market.

CEO’s Note:
There are no further plans for development of Nexus Industrial Estate in relation to Council owned land. Further stages will be developed by the adjoining land owners as per the adopted master plan. Council is obliged to complete the gas supply extension and Davey Road/Southern ramps interchange which has been funded by the NSW Government and Australian Government. All Nexus Stage 1 land is currently “on the market” and developers/businesses actively sought.
